

Rebuilding Lives.
Restoring Hope.

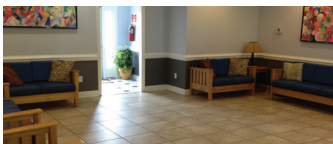

NeuroRestorative Virginia provides a continuum of community-based programs for adults with brain injury and other neurological challenges. We provide individualized, outcome-driven programs and services in the most independent setting possible, including neurorehabilitation, neurobehavioral, supported living, respite, and day treatment.

As a leading, national provider of rehabilitative services, we have the expertise and resources of an organization on the cutting-edge of clinical care. We offer an array of services based on the needs and goals of each program participant, including:

- 24-Hour Staff Supervision & Support
- Physical, Occupational, Speech and Cognitive Therapy
- Behavior Analysis & Therapy
- Life Skills Therapy
- Recreational Therapy
- Counseling
- Anger Management
- Medical Care Coordination
- Physiatry Management
- Neuropsychology
- Nursing
- Case Management
- Vocational and Productive Activities
- Community Integration

Locations

Our Blacksburg location provides a wide array of rehabilitation programs and support services in a quiet neighborhood setting. Located in the heart of the vibrant Virginia Tech community, our program offers easy access to local resources, recreational opportunities, and a real-world community setting where our rehabilitative activities are practiced and skills are mastered. In addition, NeuroRestorative has a new program in Salem.

Our specially trained staff provide individualized support and supervision, while allowing participants the opportunity to regain their independence and continue to move along a continuum of rehabilitation and care options.
