

About Numotion and Our Passion for Helping People Thrive

Numotion is committed to improving the lives of people with disabilities by enabling them to actively participate in everyday life. As the nation's leading provider of Complex Rehab Technology (CRT), we individually configure medically necessary mobility products and services. This includes manual and power wheelchairs and disposable medical supplies that are designed to meet the unique medical and functional needs of individuals with disabilities.

These disabilities typically result from a congenital disorder, a progressive or degenerative neuromuscular disease, or from injury, trauma or other conditions that cause them to require mobility equipment and lifestyle solutions. Typical diagnoses include cerebral palsy (CP); multiple sclerosis (MS); muscular dystrophy (MD), which includes ALS; traumatic brain injury (TBI); spinal cord injury (SCI); and spina bifida.

Based in Brentwood, Tenn., Numotion has 140 locations across the country, and serves more than 250,000 people annually. Our team of over 2,400 professionals are recognized as the best in the industry and are committed to providing individualized, medically appropriate and cost-effective lifestyle solutions for our customers.

Our Services

As a convenient, single resource, we provide a wide spectrum of mobility needs to our customers, including:

- Complex Rehab Technology (CRT) products and accessories
- Innovative lifestyle enhancement products
- Service and repair
